Warranty

The Daikin UK End User warranty is subject to the following terms and conditions:

With your new Daikin Altherma heat pump, you will benefit from the market-leading heat pump for your home. To access expert back-up from Daikin UK should you ever need it, please register your warranty to be eligible for your exclusive parts and labour warranty. This document explains the Terms and Conditions of your exclusive warranty and your responsibilities.

1. Scope

This warranty applies only to Daikin Altherma air-water heat pumps (excluding Daikin Altherma FLEX Type) and Daikin Altherma Hybrid Heat Pump systems, and Daikin hot water cylinders sold by Daikin Airconditioning UK Ltd ("Daikin UK"), installed in the United Kingdom and commissioned by a Daikin Altherma trained engineer, according to the manufacturer's instructions. The installation must be registered with Daikin UK to be eligible. The warranty is for 3-years, or 5-years when installed and commissioned by a Daikin KEY PARTNER installer or where purchased separately directly from Daikin UK.

2. Contents of the Warranty

When registered with us, the Homeowner of the Daikin Altherma Heat Pump receives Daikin UK's End User Warranty ("EUW") on the Product, subject to the conditions (i. ii, iii.) below for a period of 3 or 5 years from commissioning, or up to an additional 6 months from the date of delivery to the premises of the installation, whichever is the shorter ("Warranty Period").

During the Warranty Period, Daikin UK will repair or replace the parts and/or components of the Product which are covered by the warranty at our discretion so that it can ensure its conformity with Product manufacturer's specifications.

We reserve the right to charge for and inspect the Product at the premises before any warranty work is carried out. The labour costs associated with replacing parts/components which are covered by the warranty, will be borne by Daikin UK. Parts which are not included in the warranty include any pipework, connections or any other ancillary equipment connected to the Product.

We will take ownership of any parts/components and/or Product which are replaced and removed, under this warranty.

i. Commissioning

The Product must be installed, commissioned and maintained by a Daikin Altherma trained engineer or by Daikin UK authorised personnel. Gas appliances must be installed, commissioned and maintained by a GAS SAFE registered engineer.

The Daikin heat pump commissioning sheet and MCS Commissioning Certificate must be completed and signed by the commissioning engineer, and retained for future inspection. If the product has not been suitably commissioned, the warranty will be invalidated.

ii. Maintenance

The Daikin Altherma heat pump must be regularly maintained in accordance with the manufacturers' instructions by a Daikin trained maintenance company. The gas boiler must be maintained by a GAS SAFE registered engineer. The Heat Pump Logbook and Benchmark Logbook (for gas appliances) must be completed and maintenance records must be retained for inspection by Daikin UK prior to any warranty work. If the appliance has not been suitably maintained, the warranty will be invalidated.

iii. Activating your warranty

The warranty must be registered and activated with Daikin UK within 30 days of commissioning. If the product is not registered, we reserve the right to limit the warranty to a period of 3-years parts only, and in this case will charge for any associated labour costs to visit and repair/replace components.

The installation can be registered in any of the following ways

- online (<http://www.daikin.co.uk/service/warranty-registration/index.jsp>) or
